In the event of it being ascertained that tickets or season tickets have been purchased from subjects or through unauthorized channels or if the tickets or season tickets have been copied or obtained in contrast with these Regulations, admittance will not be authorized to the venue.

4.1. Ticket price and commission

The prices shown on the tickets and published on Fondazione Arena di Verona programs are official prices of sale, including relative taxes and duties.

Any commission and/or advance sales charges must be clearly indicated when tickets are purchased.

Fondazione Arena di Verona has the faculty to establish a maximum number of tickets that can be purchased by any individual person for each show.

All the seats to be allocated will be numbered and the relative numbers shown on the tickets. Fondazione Arena di Verona will not issue unnumbered tickets.

Tickets cannot be copied and are only valid for the date shown on them (except when otherwise indicated on the ticket regarding any possibility of recovery on another date in the event of cancellation due to bad weather).

Tickets purchased cannot be modified, reimbursed or returned, unless in the event of cancellation due to bad weather (according to the procedure indicated at point 6) or in the event of precise laws and governmental provisions having been issued. In the event of shows for which the possibility of recovery on another date is foreseen (explicitly indicated on the ticket or stated by the organizer) in the event of cancellation due to bad weather, reimbursement will only be due in the event of the second recovery evening being cancelled due to bad weather (according to the procedure indicated at point 6). Spectators accept without reservation and as of now any future regulations that prohibit

cash reimbursement in favour of reimbursement by means of the issue of vouchers to be used on another date.

In the event of tickets not being used due to hindrances of a personal nature, reimbursement is not foreseen on behalf of the Fondazione of either the tickets or of any service commission.

Fondazione Arena di Verona reserves the right, for organization or safety reasons, to modify the seats allocated, re-positioning them in the same sector or in another sector of a higher category with the same visibility and acoustic conditions, according to the undisputable and unilateral judgement of Fondazione Arena di Verona (the subject issuing the tickets), hereby accepted by spectators, who anyway will not be damaged by the eventual variation. In the event of seats in the same or in a higher category not being available and replacement being necessary with seats in a sector of a lower category, the difference in the price of the tickets will be reimbursed.

Reduced rate tickets will only be valid if accompanied by an ID document or another document proving the holders' right to the reduction. In the event of ticket holders not having this document with them, they will be required to pay the outstanding sum (the difference between the reduced price and the full price).

Tickets and admission passes must be conserved for the duration of the show and shown on request to Ushers, in the event of any control.

It is compulsory to only occupy the allocated seat and behave correctly and with respect for other spectators during the performance.

Spectators found without tickets will be accompanied out of the theatre.

TicketOne, Vivaticket or Fondazione have the faculty to cancel a Ticket even if already issued at any time, should problems arise regarding the effective payment of the Tickets purchased by the Client.

4.2. Loss or theft of tickets

In the event of tickets being lost or stolen, purchasers must complete a self-certification of the loss or theft of the ticket, and hand it in at the Theatre's Ticker Office along with a copy of their ID document within and no later than 2 hours before the start of the show.

The Ticket Office will do everything possible to allow the client admittance to the theatre.

4.3. Prohibitions

Tickets cannot be used for political, commercial, publicity or other promotional reasons (such as, for example, as prizes in competitions) unless previously authorized in writing by the Fondazione.

5. Disabled spectators

Persons with a certified disability - equal to or greater than 67%, upon presentation of the European Disability Card (EU Disability Card) or equivalent certification, and wheelchair users, even if they have a disability rating of less than 67% - may purchase a seat for themselves and the person accompanying them, paying for one ticket each, at the lowest available full price (6th sector) for the chosen evening, subject to availability. The person accompanying someone with a certified 100% disability and with the right to permanent carer's allowance - upon presentation of the European Disability Card (EU Disability Card) or equivalent certification - will be entitled (subject to availability) to a seat for him/herself at the symbolic price of 2.50 euro when purchased with the ticket for the disabled person being accompanied, at the lowest available full price (6th sector) for the chosen evening.

In the case of disabled persons with impaired mobility - it is ALWAYS necessary to specify this and also to state whether the disabled spectator uses a wheelchair or other walking aids, in order to allow the ticket office operators to assign designated stalls seats, subject to availability, which comply with current safety and accessibility regulations.

Reservation requests for these tickets can only be made by completing the appropriate form online prepared by Fondazione Arena, and attaching a copy of the European Disability Card (EU Disability Card) that allows the QRCode to be read, or a copy of equivalent certification specifying the percentage of disability.

There are no architectural barriers that prevent access to the stalls for wheelchair users. However, seats are limited and therefore, sending in a booking request, if not confirmed by the organiser, will not entitle the user to guaranteed attendance of the event.

Standard tickets purchased differently to the above, cannot guarantee wheelchair users access to the amphitheatre.

Audience members holding a tier ticket and who are unable to access their seats at the time of the performance will need to purchase a sector upgrade, which will be provided subject to availability.

Directions to access the amphitheatre from Piazza Bra, via a metal ramp, will be provided when purchasing tickets. Barrier-free access to the stalls is possible from gates no. 4, no. 1, and/or no. 8. The stalls are equipped with two disabled toilets.

6. Cancellation/suspension in the event of bad weather of Arena di Verona Opera Festival shows

Being open-air shows, the risk of adverse weather cannot be excluded, and is therefore deemed as accepted by the Viewer. In the case of adverse weather (rain, wind, hail, and similar weather events that would make the show impossible), the show is never cancelled before the expected starting time.

If the weather conditions do not allow for the regular performance of the show, Fondazione Arena di Verona may postpone the starting time for up to 150 minutes, before announcing its possible cancellation.

In case of suspension of the show after it has started, no refund on the ticket price will be issued. However, Fondazione Arena di Verona, in view of a fair sharing of the risk of rain, also pursuant to Article 1464 of the Civil Code, and by way of derogation from Article 1463 of the Civil Code, provides for different possibilities for its spectators.

1. In the case of permanent suspension of the show, before the end of the first act (according to the booklet), the audience will be entitled to purchase a ticket, whose category and price are equal to or lower than the ticket previously purchased, for other shows of the Festival under way, selected by the Organizer, for € 2.50.
2. If the show was performed after the first act, but it was not concluded, the audience will be entitled to a 30% discount to purchase other tickets for shows of the Festival under way, selected by the Organizer, and valid for tickets with the same or lower category or price than the ticket previously purchased.

In the case of single-act shows, or shows with several acts performed completely (e.g. Cavalleria Rusticana and Pagliacci), by purchasing the ticket, the Viewer expressly accepts that viewing and listening even to a single act of a show comprising several parts comprises an exhaustive enjoyment of the show performed, and therefore they do not constitute a singular event, under the artistic and musical profile, pursuant to Article 1314 of the Civil Code, thus recognizing Article 1316 of the Civil Code enforceable to the same. The Viewer agrees that the 'first act' rule does not apply to this context, but rather the portion of the Regulation relating to shows "not entirely performed".

If the cancellations/suspensions above, concern shows performed later than August 15th, the protections described in Sections 1., 2. shall be valid also for shows of next year's Festival, as selected by the Organizer, for the purchase of tickets whose category and price are equal to or lower than the ticket previously purchased.

In the case of adverse weather conditions before the Arena gates open, and should the weather forecast not foresee any improvement during the night, i.e., if a cancellation of the show may be reasonably foreseen, the FAV, in agreement with the Law Enforcement Officer stationed on site, may decide to delay (or subsequently cancel) the opening of the gates, for reasons of public safety.

6.1 Procedure for the reimbursement of Arena Opera Festival tickets in the event of bad weather

Spectators are informed that Carnet seat number tickets and Open Tickets cannot be refunded but can be used for successive dates of the current season (subject to the issue of the seat number ticket for the new date). The aforementioned tickets can only be refunded if the cancelled show is the last show of the season in question. Tickets purchased with "Carta del Docente" and "18app" campaigns cannot be refunded but can only be exchanged with tickets for later dates at the same Festival. Spectators expressly accept this clause also as an exception.

Reimbursements for cancelled shows may be requested directly on the original purchasing channel, within 14 days of the cancellation, through the procedure published on arena.it, after the event has been cancelled.

In any case, for refund requests presented as indicated above, only the nominal purchase price printed on tickets will be refunded. Refund requests for tickets for cancelled performances will also be accepted after the aforementioned deadlines providing, they reach Fondazione Arena di Verona within and no later than October 31st

of the year in which the Festival is held. In this case, Fondazione Arena di Verona will refund the price of the ticket minus any taxes and charges applied to the tickets.

7. Access to the amphitheatre and rules of behaviour

In order to ensure a correct access management, and prevent delays in the performance, Viewers must be at the Arena at least one hour before the show begins. The gates will open two hours before the beginning of the show.

Any late viewers or anyone leaving their seat during the show will be asked to wait for the first interval to reoccupy their seats; in the case of shows with a single act and no interval, late viewers will be asked to occupy the alternative seat assigned to them, until the end of the show.

Should a viewer be found in a different seat than that assigned on their ticket, they may be dismissed from the theatre.
